### Monte Santa Tecla, Bayonne and Valença do Minho

Santa Tecla is one of the best-known places in Galicia. Mythical place of the Galician coast and spectacular viewpoint that allows 360 degree views over the mouth of the Miño River and the coasts of Galicia and Portugal, being a strategic place for surveillance between the two countries. The Santa Tecla Mountain enjoys a spectacular landscape environment and has several elements of high heritage interest such as the castro, the petroglyphs or the hermitage of the twelfth century.

We will cross the border with the neighboring country to visit Valença do Minho, a historic walled city, with its picturesque and colorful streets.

Strategic port full of history, Bayonne is a beautiful medieval city full of a past that can be perceived walking through its beautiful streets and avenues

Cost per person: \$40
