Nature offers peace and quiet, each season brings its own charm.

Stockholm is widely regarded as one of the world's most beautiful cities, built where the lake meets the sea, on fourteen islands, with eight centuries of history and culture to choose from. The sparkling blue water and the archipelago next door define Stockholm and give it its unique character. Wherever you look, there's water. There's no getting away from the fact that the archipelago with its 30,000 islands and skerries plays a huge role in Stockholm's appeal. Your private guide will lead you through the narrow, medieval, cobblestone streets and tell you about the history of the city of Stockholm. Concerning your interests, your guide will plan a route. Among others, the most important points are City hall, Gamla Stan, Drottningholm Palace, and harbor. [B] (90 miles)
